

## JBS 3700

### AUTOMATIC SAWING MACHINE WITH MOBILE BRIDGE & TILT / TURN TABLE FOR CUTTING MARBLE AND GRANITE SLABS

#### General features:

- Head travel is motorized on three axes (X-Y-Z).
- Cut programming by means of a "CNC" axis control unit.
- Blade variable speed by frequency inverter.
- Diamond blade diameters up to 500 mm.
- Manual turn table (0° - 355°) with motorized hydraulic tilt for slab loading.
- Motorized hydraulic "pop up" roller table to facilitate slab positioning.
- Laser cutting guide (20 mW).
- Pendant control unit (corded or wireless) (optional).
