AUTOMATIC SAWING MACHINE WITH MOBILE BRIDGE FOR CUTTING MARBLE & GRANITE SLABS

AUTOMATIC SAWING MACHINE WITH MOBILE BRIDGE FOR CUTTING MARBLE & GRANITE SLABS

General features:

- Motorized head travel with variable speed on three axes (X-Y-Z).
- Cut programming by "CNC" axis control unit, with 10" "Touch-screen" color display.

- 2-speed main motor for both marble and granite.
- Diamond blade 400 mm (16") in diameter.
- Optional version for diamond blades 500 mm (20") in diameter.

- Manual main motor rotation at 4 fixed orthogonal positions with hydraulic positive locks.

- Optional motorized hydraulic roller table to facilitate slab loading and positioning.
- Optional water tank with built-in recycling pump.
- Optional slab loader with motorized hydraulic tilt.
- Optional corded or wireless pendant control unit.
- Built-in toolbox on left shoulder.

- Laser cutting guide (20 mW).
